Again - Recycle: The Dysfunction Silence Equation - The Bomb Emoji [💣] : "Truth Hurts, but Silence Kills" - Mark Twain

A very well known author said a quote from an era of time that I must demand to confront this matter urgently upon all law enforcement for "moral agency". For that era, the word "Nigger" was used so frequently and that frequency resonates with a state of affairs through all of these many years up to this day. This has impaled our country of the United States of America to a sever bondage of dysfunctional presence that is everlasting.

This is an obstacle barrier of a wall so devastating to our society one shutters themselves to bury their head in the sand to hold silence adorn to the injury, harm, blood, murder, and the devastation upon entire family bloodlines, a sacrifice that such an invisible dividing force has cut through our souls as we are not the United States of America but the Divided States of America.

The conclusion is that for our founding fathers to include specifically Thomas Jefferson the writer of the Declaration of Independence where he writes "Inalienable Rights" and "All Men Are Created Equal". This travesty of the dysfunction silence equation makes the statements made in Jefferson's writing provable to be untrue. Once we take that to hold that today's state of affairs is something lost from the vision of our foundation country, we as citizen's of the Divided States of America either accept that by state force that adult re-education to bring the collective Populus intelligence quota to an acceptable and non-depreciable literacy level truth, an educated populous rather than the condition we are currently under, a populous considered dunce. By that definition of a dunce, foreign states have successfully interfered with our United States federal election process by memetic engineering design to have weapons of war of informational means to the harm of our country. These weapons did not cause a fire in the sky or a sound at all. Silent destruction.

Do we want to collapse our country to nothingness by ignorance and a weak-minded populous?

Great Reasons Us Will Unite Peace

..... All of us are quite aware of, and deeply worried by, the disturbing social and political situation of the world today. Our world is increasingly a place of intense conflict, tension and social divisions, concentrated even in the name of God and of religion. We know that no religion is immune from forms of individual delusion or ideological extremism. This means that we must be especially alert to every type of fundamentalism, whether religious or of any other kind. A delicate balance is required to combat violence perpetrated in the name of a religion, an ideology or an economic system, while also safeguarding religious freedom, intellectual freedom and individual freedoms. But there is another temptation which we must especially guard against: the simplistic reductionism which sees only good or evil, or, if you will, the righteous and sinners. The contemporary world, with its open wounds which reflect so many of our tensions and issues, demands that we confront every form of polarization which would divide it into these two camps. We know that in the attempt to be freed of the enemy without, we can be tempted to feed the enemy within. To realize the highest and noblest of dreams and aspirations is the best way to take their place. That is something which you, as a people, reject. Our response must instead be one of hope and healing, of peace and justice. We are asked to summon the courage and the intelligence to resolve today's many geopolitical and economic crises. Even in the developed world, the effects of unjust structures and actions are all too apparent. Our efforts must aim at restoring hope, offering strength, maintaining commitments, and thus generating the well-being of individuals and of peoples. We must rise beyond together, as one, in a renewed spirit of fraternity and solidarity, cooperating generously for the common good. The challenges facing us today call for a renewal of that spirit of cooperation, which has accompanied us in much of the history of the United States. The complexity, the gravity and the urgency of these challenges demand that we pool our resources and talents, and resolve to support one another, with respect for our differences and our convictions of conscience. **Pope Francis : US Congress : Sept 2015**
